### Peer 2 Peer Mentorship Program Empowering the Next Generation Through Experience and Support

#### Program Overview

The Peer 2 Peer Mentorship Program is designed to support high school graduates as they transition into college life. Through meaningful connections with current college students, this program fosters guidance, encouragement, and real-life insights to ensure a smoother and more confident transition into higher education.

#### Our Mission

To provide first-year college students with mentorship, support, and lived experience from dedicated college student volunteers who understand the challenges of academic, social, and personal transitions.

#### How It Works

- ❖ College student volunteers are paired with incoming college freshmen.
- ❖ Mentors share their experiences, offer guidance on academic success, campus life, time management, and well-being.
- ❖ Mentorship includes regular check-ins, peer discussions, resource sharing, and social engagement activities.
- ❖ All sessions are conducted via Zoom.

#### Why Peer 2 Peer Mentorship?

- ❖ Provides a relatable support system for new students.
- ❖ Encourages confidence and independence in navigating college life.
- ❖ Helps mentees build connections and find resources early on.
- ❖ Strengthens leadership, communication, and mentoring skills for student volunteers.
